### ProX XT-SJB-4W Single Junction Box Includes 4 Sided Connecting Hardware for F34 F33 F32 F31 Truss

#### Description

ProX **XT-SJB-4W Single Junction Box** Includes 4-Sided Connecting Hardware for **F34 F33 F32 F31** Truss. The ProX Single Junction Box is an electrical enclosure designed for use in industrial and commercial settings. It is a durable and sturdy box that provides protection for electrical connections and components. The box includes four side connecting hardware that allows for easy and secure attachment to other electrical equipment and devices.

The junction box is made from high-quality materials and is designed to withstand harsh environmental conditions, such as extreme temperatures, moisture, and dust. The box features a single junction point, which makes it ideal for use in applications that require the connection of multiple electrical wires or cables.

The four side connecting hardware provides a secure and reliable connection between the junction box and other electrical equipment or devices. This makes it easy to integrate the junction box into a larger electrical system or to connect multiple devices to the same power source.
