ProX XFH-MHSTANDX2BL Pair of Black Moving Head Lighting Speaker Totem DJ Stand with Carrying Bags by Humpter

Description

ProX Black Humpter XFH-MHSTANDX2BL is the ultimate lighting stand. Designed with simplicity in mind, it requires no tools for assembly. Available in black and white finishes. MH Stands are solid and easy to set up in less than 1 minute! Their compact design and included bags make transport and storage a breeze. Quick assembly without any tools makes the MH Stand unique in its class!

We created MH Stand to allow you to quickly build a DJ stand at the highest level of aesthetics and elegance! Their transport and assembly are so convenient that they have become the dream of every mobile DJ. But most importantly, it fits perfectly with our portable DJ tables – B3 or PRO MK2.

MH Stand ensures the highest durability – Heavy, solid base, fast and robust butterfly locks, sliding legs – these are just some of the features that make them suitable for use in all conditions. An additional advantage is the structure's modularity – the whole, after being put into specially designed carrying bags, takes up little space (simple elements are only 60 cm / 23.6 inches long).

MH Stand carrying bags are designed for high mobility and maximum protection. They perfectly match all parts, making them ideal protection during transport. Each bag consists of a double layer of durable material, and the inside is filled with a special sponge, strengthening the entire structure. Thanks to those bags, the transport of MH Stands is safe and very comfortable.

Specifications:

- **Base Plate extends up to 5"**
- **Speaker/Lighting Space: 1H X 14W X 14L**

Height: 120 and 180 cm / 47,2" and 70,9"

Colors: black / white

Assembling time: less than 1 min

Maximum load: 25 kg / 55 lbs

Weight 1 pcs: 18 kg / 39,6 lbs

Solid base (weight: 12 kg / 26,5 lbs)

Extendable legs with adjustable height increase the stability of the structure.

The MH Stand include the "Fast Lock" wiring system – the cables are hidden behind the entire structure, and their dismantling is a matter of one-hand movement.

Construction adapted to speakers and moving heads.

Dual speaker mounting system – with a belt and a mounting bolt.

NOTE

All equipment and tables shown in pictures are NOT included and are for demo purposes only.
